WWW.PROJECTS4HUMANITY.ORG

Introduction

Being orphaned is not a matter of choice but rather the destiny that befalls these children. When a child loses one or both parents, they endure immense hardship and feelings of being unloved. Deprived of parental affection and basic necessities, their upbringing becomes a challenging journey.

The unfortunate truth is that the lack of proper support and guidance makes it difficult for orphans to pursue education and become self-reliant. Consequently, many of them end up straying from the right path and burdening society.

Since being orphaned is simply their fate, it is only fair that orphaned children deserve the same opportunities to experience a fulfilling childhood just like any other child. Sadly, most of them grow up facing neglect and a lack of proper care, leading to shattered dreams and limited access to resources and support.

Our mission is to change this narrative and ensure that orphaned children receive the care, education, and facilities they need to nurture their aspirations.

With your invaluable support, we tirelessly work towards creating an environment where these children can grow up like their peers, with access to all the necessary facilities, educational opportunities, and the promise of a brighter future.

Our Services

01 Complete Orphan Care Program

02 Orphan Scholarship

We provide two types of services for orphans, Complete Orphan Care and Orphan Scholarship. Through the implementation of our Complete Orphan Care program, we have made significant strides in providing comprehensive 24/7 support to orphaned children.

Our residential facilities offer them a safe and secure home environment, while our state-of-the-art educational facility ensures they receive a well-rounded education encompassing both modern and religious teachings. The health and well-being of the orphans are prioritized through regular medical check-ups, vaccinations, and access to healthcare facilities. Cultural activities and training programs further enrich their lives by nurturing their talents, boosting their self-confidence, and preparing them for future success. We remain dedicated to creating a nurturing and empowering environment where orphaned children can thrive and fulfill their potential.

And through the Orphan Scholarship Program, we want to ensure that no matter where he is in Bangladesh, his studies or dreams are not hindered by the financial crisis.

Why We Did

In Bangladesh, there are approximately 4 million orphaned children who face a life of vulnerability and neglect. Among them, many exhibit great talent and untapped potential, but unfortunately, due to the lack of proper opportunities and guidance, their abilities remain undeveloped. As a result, many of these children end up going astray and become perceived as burdens on society.

However, on a positive note, Islamic theology strongly promotes and encourages the care and support of orphans. It emphasizes the importance of looking after these vulnerable children and declares rewards for those who undertake this noble responsibility.

The Quran emphasizes the importance of caring for orphans and treating them with dignity. In one verse, Allah (swt) suggests that a person who ignores orphans is not really a believer.

'Have you seen the one who denies the Recompense [the religion]? For that is the one who drives away the orphan'. Al Ma'un: 1-2

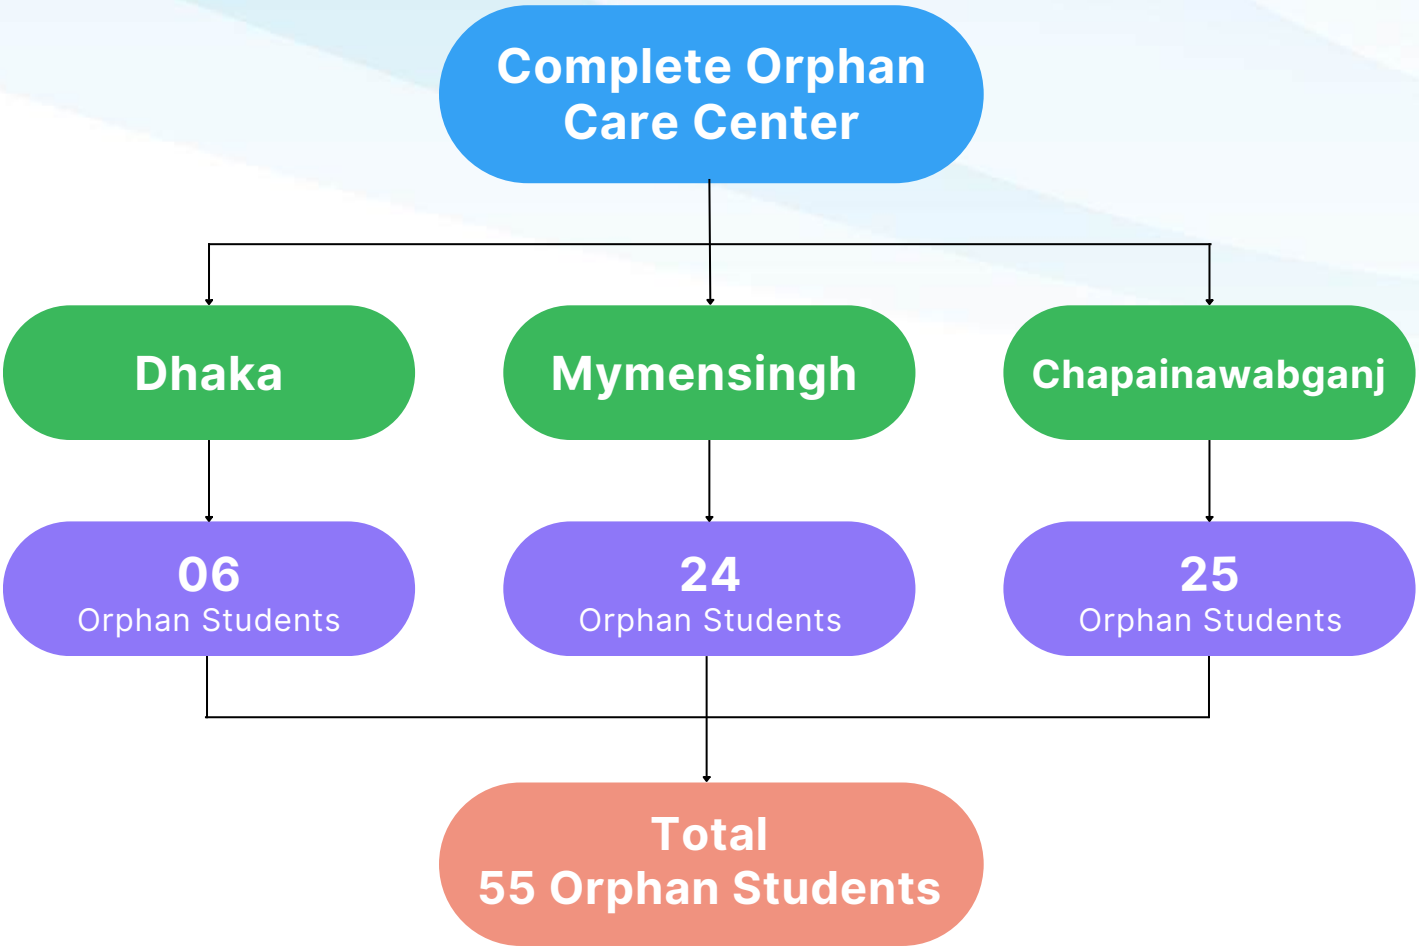
In another, Allah (swt) describes the righteous in Paradise as being those who took care of orphans during their worldly life.

'And they [the righteous] give food in spite of love for it to the needy, the orphan, and the captive…' Al Insan: 8

By implementing the Complete Orphan Care program, we fulfill our religious obligation and strive to make a positive impact on the lives of these children.

Prophet Muhammad (ﷺ), said, " The one who cares for an orphan and myself will be together in Paradise like this," and he held his two fingers together to illustrate.

[Sahih al-Bukhari]



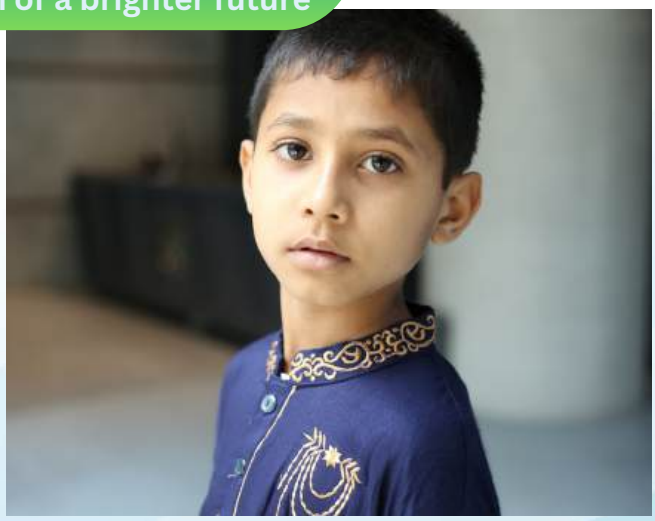
Key Features of our Complete Orphan Care Center

1. 24/7 support and comprehensive Care for meritorious orphans.
2. All basic needs are provided: education, food, health, and clothing.
3. Providing essential supplies for their daily needs.
4. Integration of modern and religious education.
5. Ensuring the children receive healthy and balanced meals.
6. Creating a nurturing environment for their growth and development.
7. Focus on physical, mental, and emotional well-being.
8. Personalized support for unique needs.
9. Conduct regular assessments to monitor the children's progress.
10. Identifying areas of improvement and implementing appropriate measures.

Complete Orphans Care

Our Complete Orphan Care program operates in three centers, offering comprehensive support to 55 orphaned children. From the age of six until they enter university, we provide a range of services, including secure residential facilities, high-quality education, prioritized healthcare, enriching cultural activities, and comprehensive training programs. Our ultimate goal is to create a nurturing and empowering environment where these children can thrive, develop, and build a promising future.

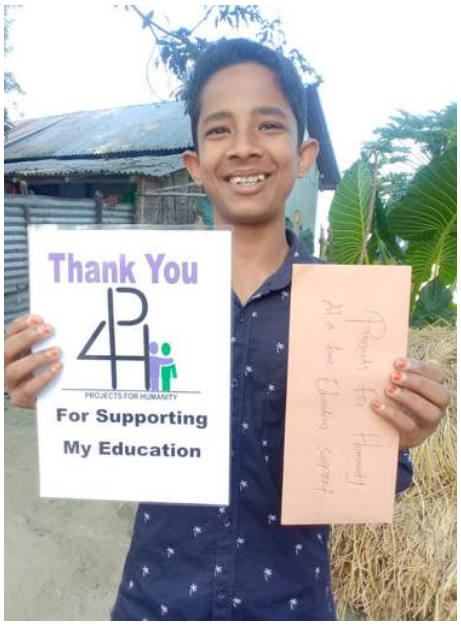
55 Orphans are enjoying the same benefits as their peers and are starting to dream of a brighter future



Orphan Scholership

To ensure that the educational pursuits and dreams of talented orphan students do not falter due to a lack of financial support, we have established orphan education scholarships. To remove financial barriers and promote equal access to quality education for orphans, we provide one-time and recurring financial assistance to orphan students studying at various levels, including honors.

We are giving more priority to girls in terms of scholarships as we have not yet been able to make any special Orphan Care center for girls. We firmly believe that by fostering their educational journey, we can contribute to creating a more inclusive and equitable society where every child has the chance to thrive.



What Do We Provide?

Always smiling and cheerful boy Lizan wants to be a teacher

> Prophet Muhammad (ﷺ), said, “ The best house among the Muslims is the house in which orphans are well-treated. The worst house among the Muslims is the house in which orphans are ill-treated.”
> [Bukhari]

Impacts Story

If a student in the 5th-grade dreams of becoming a teacher at Harvard University, even from a remote area like Chilmari, then it is understood that he has the courage to dream in the sky!

The first blow to this dream came on 3rd April 2020 when Lisan's mother passed away. Lizaan said crying "When I had a mother, she would fulfill all my wishes, if I could do something small, she would make me feel like I had conquered the world; after my mother died, I felt like I had no one left to fulfill my hopes."

The father is not fully able to work, yet he tries to raise the child in any way he can. There were also obstacles, his own uncles kept causing trouble and turmoil in various ways. It is impossible for this child to continue studying with so much trouble at such a young age!

But Lizan got a chance to do this impossible, through Project for Humanity's Complete Orphan Care. After coming here, he started dreaming again and is continuing his studies accordingly.

Lam Mim Huda Lizan
Student of Orphan Center

In the midst of hardship, Minhaj clung to his precious dream of becoming an engineer. Born into a poor family, he cherished this ambition with all his heart, inspired by the hope of a brighter future. But after his father died suddenly, the family struggled financially. And in this situation, he almost assumed his dream was about to end.

We did not want to garner praise by capitalizing on this fortune by providing Minhaj with some money and two meals a day. We put ourselves in the place of Minhaj and wanted to understand, what is his cry? What is his dream?- We have seen, he wants to read, he wants to be a healthy and beautiful person in a beautiful environment. P4H will bear all the responsibilities of Minhaj for the next 7 years (up to HSC) including education, accommodation, food and all expenses.

We didn't believe in temporary results or long-term change through propaganda, so we felt the urge to share the beautiful dreams of a few dreamy orphans.

Minhaj Mahmud Munna
Student of Orphan Center
