

MONTHLY UPDATE | MARCH 2026

Let's Make Change Together

Dear friends, donors, volunteers & well-wishers,
Peace be upon you all.

As we passed through the blessed month of Ramadan, we were reminded of both the beauty of compassion and the weight of global hardship. Ongoing crises, global conflicts, rising costs, and climate challenges continue to impact vulnerable communities. Yet, your generosity continued to shine. Throughout March, your support helped us provide **560,000+ meals** and reach more than **20,400 individuals** with food, care, and hope reflecting the true spirit of Ramadan. We are deeply grateful to our donors and supporters who chose to give despite these challenges. Your compassion is a lifeline for so many.

Thank you for walking this journey with us.

A Story of Hope

Faruk Hossain lost his father at a young age and grew up battling poverty. In search of a better life, he moved to Dhaka and worked hard to support his family. But a tragic accident left him unable to continue heavy work, pushing his family into deeper hardship.

Through the Underprivileged Development Program of Projects for Humanity, he received support to start a small fuchka and chotpoti business. Today, he earns 600–700 BDT daily, supporting his family and keeping his child's dreams alive. Faruk Hossain said emotionally,

“For someone like me who had become unable to work, you gave me a way to earn and support my family. May Allah bless you all.”

So far, this program has supported 686 families, impacting over 3,100 individuals with opportunities for a better future.

Milestone Update: Two Water Plants Near Completion

Construction of two new water plants for coastal communities is nearly complete, in collaboration with Grundfos. Final installations are underway, with launch expected in April to provide safe drinking water to communities in need.

What's Next?

In April, Projects for Humanity will continue supporting vulnerable communities through food assistance, orphan care, and refugee services. We also plan to launch two new water plants for coastal communities, expanding access to safe drinking water, while continuing our efforts in livelihood support, education, and healthcare.
